**COMMENTS OF  
Shasta Community Access Channels**

**Shasta Community Access Channels, operated by Shasta County Arts Council, a 501c3**, submits these comments in response to the notice for comments on the above applications, released July 24, 2014.

**We operate public access channels in Redding, CA and have been for just over one year. One of the most exciting programs we offer is our YOUTHFORCE Initiative which provides digital media arts training to at-risk youth to develop career pathways and job skills – all the while providing local content for our channels about nonprofit organizations, the arts, culture, government, sporting events, elections and more.**

**Shasta Community Access Channels** requests the Commission to not approve the Comcast Time Warner Charter transactions unless our concerns are addressed adequately in the form of conditions.

**Shasta Community Access Channels concerns include:**

**Impact on availability of HD delivery**

**Impact of availability of Video Program Guide listings**

**Impact of availability of DVR**

**Impact of new entity to meet technical needs of our organization**

**Impact/Ability of the new entity to support PEG community media production on the local level**

**Ability to continue to be carried on the Basic Tier**

**Ability to be reasonably adjacent to the primary channel(s) for local broadcast affiliates**

**Impact of the merged or new entity to affect distribution of programs by PEG channels and producers on internet platforms unless Net Neutrality provisions are in place supporting producers**

**Sincerely,**

A handwritten signature in blue ink that reads "Debra Lucero". The signature is fluid and cursive, with a small square mark to the left of the first letter.

**Executive Director**
